SUMMARY

I am a dedicated Node.js Developer seeking challenging opportunities where I can leverage my skills in software development and contribute to the success of the organization. I have a strong background in web development, payment integration, and API management.

SKILLS

- **Languages & Frameworks:** JavaScript (ES6+), TypeScript, Node.js, Express.js, PHP (basic)
- **Databases:** MySQL, MongoDB (basic), Redis, Redis Stack
- **APIs & Integrations:** RESTful API design, Third-party API integration, Payment Gateways (Stripe, In-App Purchases, GoCardless), Twitter Posting, Data Synchronization
- **Tools & DevOps:** Git, Docker, Postman, Swagger, Jenkins for Deployment, Bitbucket
- **Real-Time Communication:** Socket.IO, OneSignal
- **Other Skills:** JWT, React Email, API documentation, Microservices, Cron jobs, error handling

WORK EXPERIENCE

Jr. Node.js Developer, Jnext Services Pvt. Ltd.   Dec 2022 - Aug 2025

- Developed and maintained scalable RESTful APIs using Node.js, JWT, and SQL to ensure seamless communication between server and client.
- Implemented job scheduling, cron-jobs, and automated background processes using queues to improve efficiency and reliability.
- Integrated payment gateways like Stripe, including in-app purchases and Webhooks for real-time transaction updates.
- Built robust solutions for third-party API integration and synchronized data from external systems.
- Enhanced application performance and reliability by using Redis for caching, error handling, and load reduction.

PROJECTS

SmartB – Sports Betting App & Web Platform

- Developed and maintained core features for a comprehensive multi-sport and racing betting platform.
- Integrated advertisement management systems and third-party libraries to extend platform functionality.
- Designed and development daily email notifications to keep users updated on their betting activity.
- Integrated secure payment gateways (e.g., Stripe, in-app purchases) to support smooth and secure transactions.
- Managed payment APIs for authorization implemented webhooks for real-time updates.

SmartPlay – Fantasy Sports App & Web Application

- SmartPlay – Fantasy Sports App & Web Application
- Designed and developed a user-friendly fantasy sports platform, similar to Dream11, for both web and mobile.
- Implemented a Buy Coins System for secure in-app currency purchases.
- Developed a Coins Withdrawal System.
- Built a Bonus Coins System to drive user engagement and retention through rewards.
- Integrated real-time push and email notifications for team updates, match results, and winner announcements.

SmartOdd – Live Racing & Odds Monitoring Platform

- Developed real-time upcoming race notifications system to keep users informed about scheduled events.
- Implemented watchlist-based notifications using WebSockets for immediate updates on user-selected races.
- Built a live odds and fluctuations monitoring system, enabling users to track betting market movements dynamically.

EDUCATION

Bachelor of Engineering (B.E.) - Electronics & Communication   2017 – 2021
Government Engineering College, Bhavnagar   CGPA: 7.45

ADDITIONAL INFORMATION

- **AI Tools:** Chatgpt, codeium, Notion, Blackbox
- **Languages:** English, Hindi, Gujarati
- **Other Skills:** Team leading, Code review of junior member, Collaboration with FE team, Problem Solving
